

BELL BAY WIND FARM

Community drop-in session

We are Equis, building a renewable energy and carbon-free future for all Australians.

We are proposing to develop the Bell Bay Wind Farm northeast of George Town, Tasmania. It will host up-to 28-turbines with a capacity of up to 224MW to support future industry and manufacturing with clean, affordable and reliable energy while creating up to 192 direct jobs.

You're invited to our drop-in session to learn more about our project, ask questions, and provide feedback. You don't need to register to attend, drop in anytime to have a chat with our team.

Where The Macquarie Room at George Town Memorial Hall

When Tuesday, 25 November 2025

12:00pm - 2:00pm

4:00pm - 6:00pm

If you can't attend our session and want more information you can:
